Süleyman Mehmet Güneş

Computer Engineer Candidate

In 2018, I had the opportunity to participate in the Rotary Youth Exchange program, where I spent 2 weeks in London, England.

I joined Istanbul Bilgi University in 2019 in the Computer Engineering program with a 50% scholarship. Following my first year in the preparatory school, I am currently a fourth-year student with a CGPA of 3.18.

I possess skills in HTML, CSS, JavaScript, React, React Native, Java, and Python.

In 2022, I successfully completed my engineering internship at İşNet, where I focused on frontend development. During this internship, I had the opportunity to work on various projects, honing my skills in frontend development.

Additionally, while pursuing my education, I worked on a project with my peers during the course "Software Engineering Concepts" to develop a Smart Home application. In this project, I took on responsibilities for user interface design and software development.

I am a competitive, enthusiastic, open-minded individual who thrives on continuous learning and self-improvement.

Experience

Istanbul, Türkiye
Jul 2022 - Aug 2022

Frontend Developer Intern
İşNet

During my internship, I worked on HTML, CSS, JavaScript, and React.

Education

Istanbul, Türkiye
Sep 2019 - Present

B.S. Computer Engineering
Istanbul Bilgi University

Faculty of Engineering and Natural Sciences
(4th Year, CGPA: 3.18)

Project

The Smart Home System project related to the "CMPE 331 - Software Engineering Concepts" course was developed during the Fall 2022-2023 semester. In this project, I took on roles in user interface design and software development.
